Man i remember when me and my sis and my cousin roma will be at their place and gma would always spoil us and play with us and a good memory of her was when she told my sis to go away lil girl it was funny cause she didn't mean to hurt her feelings she did it to be funny. And last year or year before that i had felt her presence while i was at her house and it was when i was looking at the books at the end of the hallway and she rested her hand on my shoulder and i felt it and she knew i loved looking at them so she rested her hand on my shoulder and this past summer i was at their house but i didn't feel her presence which kinda made me upset.
